<https://antoinedaurat.dev/>

35, French, living in Berlin since 2006

Autodidact Developer with an artistic background and 2 years professional experiences looking for an inspiring team to be part of

EXPERIENCE

Co-Founder, Lead Developer — KTONAL, Berlin

September 2020

- Implemented **audio generative models** in Pytorch for musicians to gain access to deep-learning technologies.

Data Scientist / Backend Developer — Pricewaterhouse Coopers, Berlin

February 2019 – July 2020

- Implemented a **text-classification microservice** in Python (Flask) for accounting documents in German.
- Worked on every aspect of the **Java backend** of a data-visualization web-application.
- Refactored a **ML/NLP microservice**, which performed various predictive tasks on Financial Statements.

Composer – Conductor — Freelance, Berlin

October 2014 – September 2018

- Programmed **music-composing algorithms** (in scheme) and live **audio effects** (Max-MSP) for my own compositions.
- Composition of **instrumental and electronic music pieces** for various ensemble, festivals.
- Performed in and conducted repetitions for **music theater productions**.

EDUCATION

Self-Study, Berlin

Since October 2018

- Studied Mathematics, Computer Science, Machine Learning, NLP and Signal Processing on my own through online-courses, textbooks and research papers.

Hochschule für Musik Hanns Eisler, Berlin

September 2007 – September 2014

- **Master** Degree in Instrumental Composition and Electronic Music
